THIS JUST IN

LEGISLATIVE UPDATE . . . December 2001

The New Jersey Surplus Lines Association has just received updated information from the New Jersey Department of Insurance that approvals for E&S Companies for Mold Exclusions are under way.

Only with the understanding that at time of quotation a notice will be attached to stating that a Mold exclusion is being quoted for both new and renewal policies.

This approval is for commercial business only and they have not decided on personal lines. Some filings may not get approved because of a prior denial and may need to be resubmitted.

Keep checking this website for future updates on this matter as they are received and published.
